

SOUTHEAST REGIONAL DUI TREATMENT DOCKET REFERRAL PACKET (rev MAR 2024)

This folder contains information about participation in the Southeast Regional DUI Treatment Docket and the process to determine eligibility. The materials in this folder are to support attorneys in moving their client through the SERDTD referral process.

Participating in the Southeast Regional DUI Treatment Docket is voluntary. However, if a client chooses to participate in the DUI Docket, the requirements contained in the SERDTD Participant Handbook are mandatory. The Participant Handbook outlines participant obligations and information to help the client learn about the program and will be a reference for them throughout. During the referral process, the Court Coordinator will conduct a program orientation with the client and go through the handbook with them. The attorney will also provide an overview of program related documents to inform the client what he/she/they need to know to make a decision on whether to enter the program.
