BUSINESS ITEM:

Efiling rules to implement electronic filing before Professional Responsibility Board (PRB) hearing panels

J. Dooley provided some background to the process of implementing e-filing to proceedings before hearing panels of the PRB. During this process, it was discovered that there were some inconsistencies between language of AO 9 and hearing panel establish practice connected to how files were treated in formal proceedings that ended with a private admonition. There is now a proposed amendment to AO 9 to make files nonpublic if a private admonition results.

J. Thibault moved to ask the Supreme Court to send the proposed rules out for comment; Attorney Levine seconded the motion; all voted in favor.

Ms. Schels moved to adjourn; Laura LaRosa seconded the motion; all voted in favor.
